# Train to be a Teaching Assistant

## NCFE CACHE Level 3 Certificate in Supporting Teaching & Learning

### The Swaledale Alliance

We are dedicated to providing a qualification our local schools recognise as a high-quality. The time in school element of this course is highly valued by schools as excellent preparation for the role of Teaching Assistant, as a result, many of our previous delegates have found employment in our local schools.

### Qualification

We offer the nationally recognised Level 3 Certificate in Supporting Teaching and Learning in Schools (QCF). The Course runs for 1 academic year during which learners will be required to spend the equivalent of 2 days per week gaining classroom experience and one evening session per week on the theory aspect of this course.

### Method of Assessment

Learners will be required to compile a portfolio of evidence and written assignments which demonstrates their learning against each of the assessment criteria for the course. They will also have regular visits in school from the course assessors and will receive marking and feedback support during the evening sessions.

### Sponsorship

We offer a limited number of sponsorship placements which are allocated through an application and interview process. Preference will be given to applicants with GCSE Grade 4 & above (or equivalent) in English & Maths. The sponsor school will meet the cost of the course fee, however learners will still need to pay the registration fee and deposit. Learners will commit to undertaking their school experience in that school over the full academic year.
