

# Make a Microorganism

Name of microorganism \_\_\_\_\_

Draw a picture or stick a photo of your microorganism here.

Classification of your microorganism (think about the structure of its cell. Is it a bacteria, an animal, a plant or a fungus?):

---

---

---

---

---

---

---

---

Is your microorganism useful or harmful to humans? What are its uses or effects?

---

---

---

---

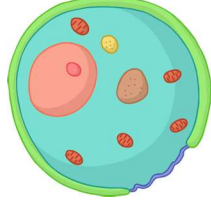

---

---

---

---

Remember: fungus, plant and animal cells contain small organelles, including a nucleus containing organised DNA.

Bacteria cells do not contain a nucleus, and the DNA is free within the cell.
