

# Pictograms

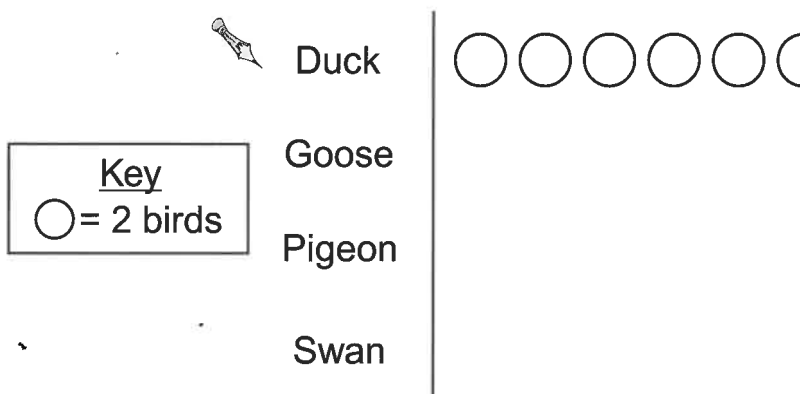

1

Noah counted the different birds he spotted at the park.

He put his data into a table.

Type of bird	Number of birds
Duck	11
Goose	6
Pigeon	14
Swan	5

Use the data from the table to complete the pictogram.

2 marks

Noah added  $4\frac{1}{2}$  circles to the pictogram to show how many starlings he saw.  
How many starlings did he see?

starlings

1 mark
